NOTE TO: DDI  
ADDI

SUBJECT: Space for Maps Services Center

*John*  
I asked for the attached to be compiled because we have become totally frustrated with GSA and to some extent with OL. We have been dealing on a regular basis with several management levels in OL (D/OL, EXO/OL, C/RECD), but there has been no real progress in the past 18 months. I believe it is time to escalate. Would one of you raise the issue with Bill Donnelly at an appropriate time? Thanks.

NOTE TO: Director of Logistics

SUBJECT: Space for the Maps Services  
Center, OIR

*John*

The attached is a fairly comprehensive chronology of our attempts to find space for the Maps Services Center (MSC). It illustrates how little we have accomplished in the last 18 months. [REDACTED]

[REDACTED] Given the history of this project, I believe that we need some bold and drastic measures to find a solution. We, in fact, need [REDACTED] because MSC cannot continue to operate under current conditions.

[REDACTED]  
Director of Information Resources
